

Year 3 Spring Newsletter 2019

Happy New Year to all our year 3 families. We sincerely hope you all had a lovely Christmas break. The children have come back to school full of smiles and enthusiasm for their learning which is just delightful to witness.

Our Spring 1 topic is 'London vs Paris'. During this geography-based topic, the children will be making comparisons between London and Paris after learning some key information about these two European capitals.

For the second half term, we will be learning about the human body in our 'Blood, Bones and Body Bits' science topic. Preparations for our Easter production will take place this half term too and we look forward to sharing this performance with you.

To best support your child's learning at home please read together regularly: this is invaluable to make maximum progress in Year 3. When children are confident and independent readers, reading aloud is still so important alongside the discussions needed to develop their comprehension of the text. Revising number bond facts and practising times tables are great ways to support Maths learning when walking and driving from place to place. The online game 'Rockstars' (<https://trockstars.com/>) is a fun way for children to practise their tables knowledge. Their log-ins are in their green reading logs. If your child makes a trip to London this term, please encourage them to share their experience with the class.

We hope to have a fabulous spring term,

Mrs Walker & Mrs Gregory

Mrs Chapman & Mrs Bridle

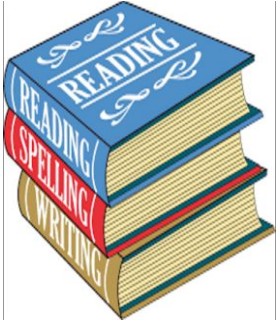

Miss Barnett
