

evergreen

Evergreen; A tree that has green leaves all the year round.

deciduous

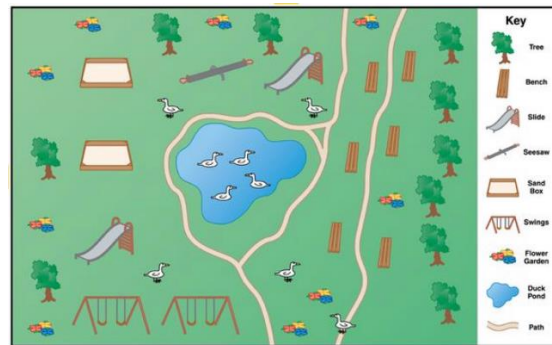

Deciduous; A tree that loses its leaves in the autumn every year.

Into the Woods Knowledge Organiser

Branches – the parts that grow out from the trunk of a tree and have leaves, flowers and fruit growing on them.

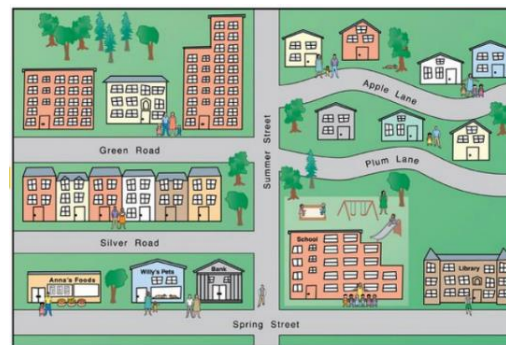

Trunk – the large main stem of a tree from which the branches grow.

Bark – a tough material that covers the outside of the tree.

What can you find on the maps?

Can you describe a journey you may take on this map?

Physical Features...forest, hill, sea, river, soil, vegetation, tree, beach, cliff, pond

British Trees

Things to try at home to support learning...

- Hunt for some of the trees in your garden or local park.
- Make a bark rubbing of a tree near you.
- Draw a picture of your favourite tree.
- Retell your favourite traditional tale to someone.
- Create a map of your favourite park.
