

I can compare the weight of two objects - Challenges:

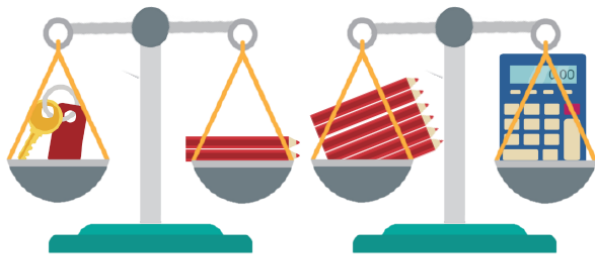

heavier	lighter
---------	---------

The carrot weighs \_\_\_\_\_ cubes.

The corn weighs \_\_\_\_\_ cubes.

The carrot is \_\_\_\_\_ than the corn.

The corn is \_\_\_\_\_ than the carrot.

One  is  than two 

heavier

lighter

---

---

---

---

---

Ben thinks that 2 red cubes would be equal to 5 purple cubes.

Is he right? Explain your answer.

---

---

Place the objects on the scale to make them equal.
