

Hello everyone!
I am
Numberblock
10

I am so excited that I am going to be spending the next two weeks with you so you can find out all about me!
I've got some super fun challenges coming up for you!

Compare Numberblocks 9 and 10.
What differences can you spot?

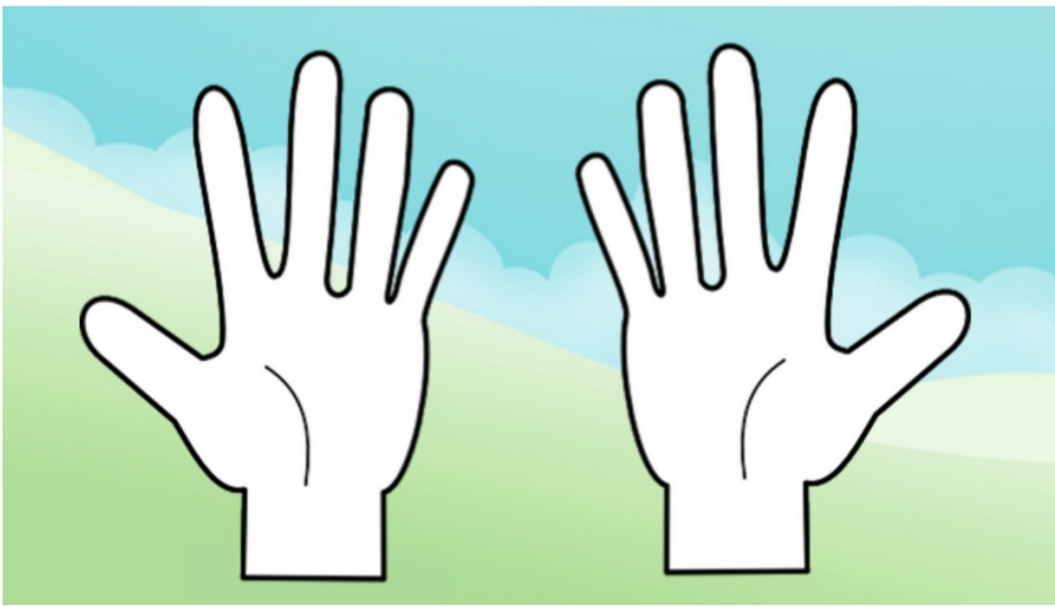

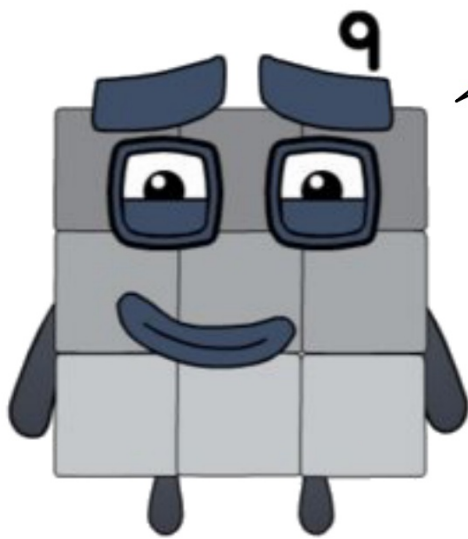

What do you have ten of?

Count your fingers.

*Play 'show me.' Grown up to shout out a number from 1-10.
Children represent this on their fingers.*

Would you like a ten challenge?
Use your items to fill your tens
frame.

Parents - Draw out a tens frame to add your items to - these can be lego blocks, small figures or anything small your child can count.

Give your child 9 items only - Get them to place on the tens frame and then give them the tenth item. Get them to model the stem sentence '10 is 1 more than 9' Then talk about what they can see - The frame is full / 10 is 2 lots of 5 / 10 is 5 lots of 2 etc.
