I can compare objects and numbers within 50.

\_ is greater than \_

\_ is less than \_

\_ is equal to \_

Compare these sets of objects using words (greater than, less than, equal to) or symbols (<, >, =).

	<p>35 is greater than 25</p> <p><math>35 &gt; 25</math></p>	
--	---	--

--	--	--

		<p>3 tens and three ones</p>
--	--	------------------------------

		<p>3 tens and five ones</p>
--	--	-----------------------------

		<p>2 tens and two ones</p>
--	--	----------------------------

<p>2 tens and five ones</p>		<p>4 tens and five ones</p>
-----------------------------	--	-----------------------------

Compare these numbers using words (greater than, less than, equal to) or symbols (<, >, =).

15		21
----	--	----

12		25
----	--	----

15		45
----	--	----

22		25
----	--	----

36		45
----	--	----

➤ Challenge: Can you find 5 ways to make this correct?

--	---	--

Dexter compares two numbers.

30 is less than 33

Is Dexter right?

How do you know?

You could draw some tens and ones to check.

Dexter compares two numbers.

30 is less than 33

Dexter draws tens and ones and puts a symbol in the middle to show 30 is less than 33.

Is he still right?

Teddy is comparing two numbers.

My number is larger than 19 but not one more than 19

What could Teddy's number be?
