91	92	93	94	95	96	97	98	99	100

Can you count in 2s, 5s and 10s?

Shade quarter of the shapes.

## I can tell the time to 5 minutes

<b>Shape</b> 				
I can name some common 2D and 3D shapes from a group of shapes or from pictures of the shapes and describe some of their properties (e.g. triangles, rectangles, squares, circles, cuboids, cubes, pyramids and spheres).				
I can name and describe properties of 2D and 3D shapes, including number of sides, vertices, edges, faces and lines of symmetry.				
I can describe similarities and differences of 2D and 3D shape, using their properties (e.g. that two different 2D shapes both have only one line of symmetry; that a cube and a cuboid have the same number of edges, faces and vertices, but different dimensions).				
<b>Fractions</b> 				
I can identify $\frac{1}{4}$ , $\frac{1}{3}$ , $\frac{1}{2}$ , $\frac{2}{4}$ , $\frac{3}{4}$ , of a number or shape, and know that all parts must be equal parts of the whole.				
<b>Time</b> 				
I can read the time on a clock to the nearest 15 minutes.				
I can read the time on a clock to the nearest 5 minutes.				

Count in 5's round the clock and label.

\_\_\_ past the hour

What does each number on the clock represent?

Is there another way to say 15 past, 30 past and 45 past?

How many minutes to the hour?

\_\_\_\_\_ to the hour

Quarter to

Quarter past

Half past

What does each number on the clock represent?

How many minutes to the hour?

Where should the minute hand be to show 25 to?

Make your own 25 to the hour times

How many minutes to the hour?

Where should the minute hand be to show 20 to?

Make your own 20 to the hour times

How many minutes to the hour?

Where should the minute hand be to show 10 to?

Make your own 10 to the hour times

How many minutes to the hour?

Where should the minute hand be to show 5 to?

Make your own 5 to the hour times

Draw hands to show -

25 to 3

25 to 4

25 to 5

Draw hands to show -

20 to 3

20 to 4

20 to 5

Match the clocks to the times

5 to 5

10 to 5

20 to 5

25 to 5

reasoning

A green analog clock with black numbers 1-12. The hour hand is between 10 and 11, and the minute hand is pointing at 2. The time shown is 10:10.

 It is ten to one.

Sarah

 It is ten past ten.

Brett

 It is ten to two.

Kitty

Who is correct? Explain your answer.

---

## plenary

Sophia starts her Maths questions at 10 past 11

Each question takes her 5 minutes to complete.  
She completes 7 questions.

What time does Sophia finish her Maths questions?  
Explain how you found the answer.
