

Today we are going to have a go  
at making a hinge!

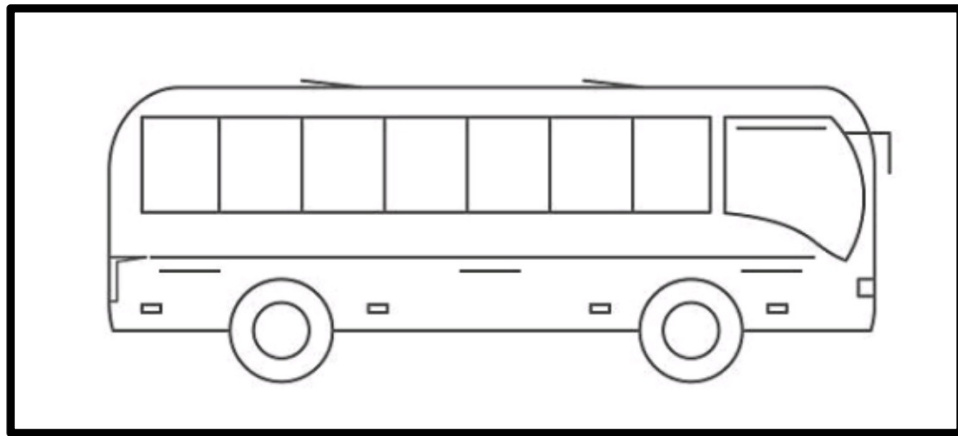

**Hinge**

Imagine you are riding on a bus. What parts of the bus move?

How would a door move if you were opening it?

Hinge

1. Draw your bus with a person standing in the doorway. Colour it in.
2. Now cut out a door shape from another piece of paper.
3. Make a hinge by glueing or taping the side of your door.
4. Can you lift the flap and see your person?
