Year | PE Circuit A

Start with a warm up stretch routine:

Why Do We Need to Stretch before Physical Activity?

- Before you stretch, it is important to get your heart pumping more blood to your muscles by doing a warm-up.
- Once your muscles are warmed up, you can stretch them to help prepare your body for exercise.
- Stretching can stop you from getting injuries and can also make your muscles more flexible.

Year | PE Circuit A

Here are 6 activities that could be part of your circuit. Make sure you have had a go at stretching your muscles before starting.

See if you can do each of the exercises for 30 seconds with a 10 second break between each one. Try to follow the numbers, but if you find one exercise too tricky or you feel uncomfortable when doing it, skip that one. You could put some music on to keep you motivated!

You will need: a timer, space to move, music (if needed)

Toe Touches

Do 10 toe touches:

- Reach up high and then bend down and touch your toes.
 Your arms and legs should stay straight.
- Can you do sitting toe touches?

Tuck jumps

Do 10 tuck jumps:

- · How high can you jump?
- Can you jump higher than your buddy?
- How many tuck jumps can you do without stopping?

Star Jumps

Do star jumps for one minute:

· How many can you do?

Knee Highs

Run around the circuit bringing your knees up high.

Hopping

Hop around the circuit:

- · How many laps can you do?
- How many hops can you do before you need to swap legs?

Bunny Jumps

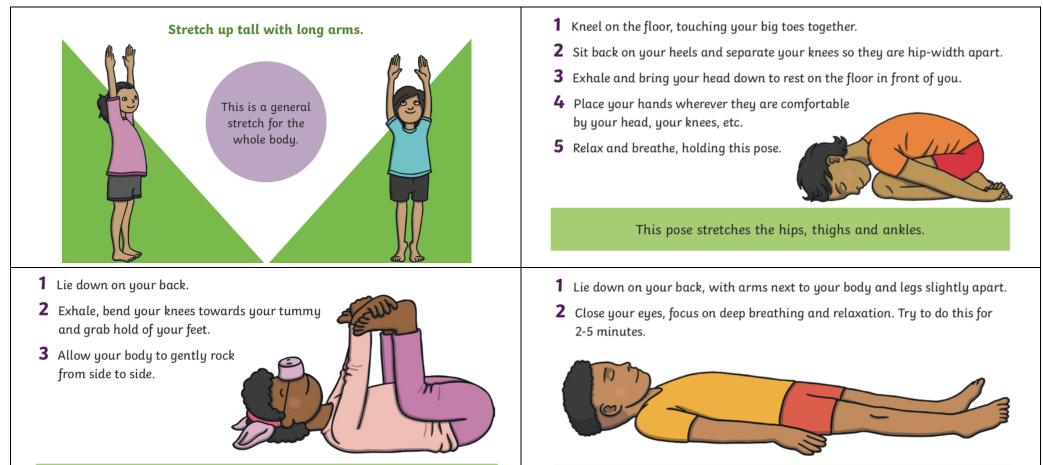

Do 10 bunny jumps:

- How far can you travel?
- How high can you jump?
- Can you jump higher or further than your friend?

Year | PE Circuit A

Finish with a cool down routine:

Why Do We Need to Stretch after Physical Activity?

This stretches the groin and spine.

- · When you've finished exercising, it's important to cool down by doing some stretches, too.
- Stretching after a workout helps to stop your muscles from feeling stiff and sore by gradually returning them to their normal state.

This calms the body and mind.
