

# Written Subtraction

It can help to line up the ones when you subtract numbers with different numbers of digits.

19 6485 - 3261

20 7354 - 5426

21 5843 - 217

22 3251 - 198

23 2648 - 649

24 3344 - 444

25 6271 - 349

26 9064 - 318

You could do  
2648 - 648 - 1  
if you find it easier.

# Written Subtraction

27 82578 - 2210

28 68545 - 68

29 45876 - 6863

30 25186 - 6446

31 59846 - 9000 - 34

32 25498 - 5586 - 12

33 19861 - 234 - 67

34 76519 - 2056 - 35

Calculators love subtracting numbers in columns.  
They do it all the time. How did you do?
