

**Maths Focus:** Place value, mental and written addition, finding all possibilities

**HELP-FUL HINTS:** work through each possible way through the maze in a logical way, for example starting on the left hand side, changing the direction a little each time

Level 1	Level 2	Level 3
<p>Here is a special 'Addition Maze'. Jessica moves her finger through the maze adding the numbers as she goes. She is deciding which way to go</p> <p>1. Which way through the maze gives you the highest finish value?            2. Which way through the maze gives you the lowest finish value?            3. What different finish numbers can be made?</p>	<p>Here is a special 'Addition Maze'. Jessica moves her finger through the maze adding the numbers as she goes.
