

Maths: I can find half of an amount.

How many ways can you find half? Colour in the squares until you have coloured half of each rectangle. How many squares are coloured in. For example:

There are 6 squares. $\frac{1}{2}$ of 6 is 3.

How many ways can you find half?

There are _____ squares. $\frac{1}{2}$ of _____ is _____.

How many ways can you find half?

There are _____ squares. $\frac{1}{2}$ of _____ is _____.

Mo is finding halves.

It is hard to find half of an odd number.

Do you agree with Mo?
Explain your answer.
