

Friday

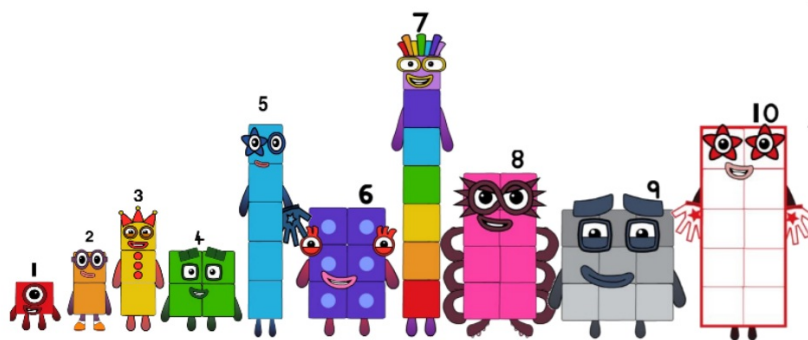

Play Count the Yetis

See today's post for a link to click on and the game should load online.

Friday

Come and play our
spinning game!

It's the Numberblocks Spin Game!

Grown ups you should be able to click on the link on today's post to open the spinner. If that doesn't work then please type the link into your web browser and for the best effect open it as a full screen.

See the next page for how to play

Numberblock Spin

First collect some counting objects.

Next, spin the spinner to choose the number you need to build.

Race to build the number with your grown up.

Can you split it into parts and tell your grown up how you have made the number?

Use the part part whole model or a tens frame. You may choose to make the numbers using three parts as well. You could show this pictorially.

Have Fun!
