

Hi!
I'm Numberblock 13!

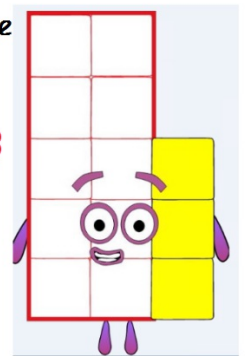

Can you collect 13 objects from your house or garden, arrange them in a 20 frame and show your grown-up how you can count carefully.

Poor number 13 falls apart whenever anyone says his name! Can you help to rebuild him in different ways like he did in the episode?

You could use 10 white squares and 3 coloured squares. As you make 13 in different ways, practise saying "10 and 3 more makes 13".

Start at the top and
down we run,

That's the way we
make a one.

Around the tree and
around the tree,

That's the way we
make a three.

Practise writing the number 13, saying the rhymes as you write each number. Can you make it bright and colourful to try to cheer Numberblock 13 up?
