Checking and Estimating

1. Dawn does the sum **341 + 126 = 467** in a maths lesson.

   What inverse calculation could she use to check her answer? Tick the box.

   ☐ 467 + 126 = 341   ☐ 341 − 126 = 467   ☐ 467 − 126 = 341

2. 360 ÷ 120 = 3.

   Circle the multiplication below that correctly uses the same numbers.
   | **360 × 120 = 3** | **120 × 3 = 360** | **360 × 3 = 120** |

3. Draw a line to join each calculation to its inverse. One has been done for you.

   15 + 3 = 18   45 ÷ 3 = 15

   15 ÷ 3 = 5   18 − 3 = 15

   15 × 3 = 45   18 + 3 = 21

   21 − 3 = 18   5 × 3 = 15

4. Here are some multiplications.

   For each multiplication, write a division that uses the same numbers.

   49 × 3 = 147   ☐ ÷ ☐ = ☐

   286 × 19 = 5434   ☐ ÷ ☐ = ☐
