

Read the poem about the parts of a plant. If you can, go out into the garden and see what different flowering plants you can see.

The poem is full of information about plants. Try to use this information to complete the worksheet. You need to name each part of the plant and describe its job.

This short clip will give you more information about the job of each part of a plant.

Parts of Plants

(Tune: Muffin Man)

Oh, do you know the parts of plants,
The parts of plants, the parts of plants?
Do you know the parts of plants?
That make them grow and grow?

The roots, they hold the plant in place,
The plant in place, the plant in place.
The roots, they hold the plant in place
Soak up food and water, too.

The stem moves water up the plant,
Up the plant, up the plant.
The stem moves water up the plant
Brings water to the leaves.

The leaves soak up the rays of sun,
The rays of sun, the rays of sun.
The leaves soak up the rays of sun,
And help the plant make food.

The flower grows into a fruit,
Into a fruit, into a fruit.
The flower grows into a fruit,
Which holds the tiny seeds.

Now you know the parts of plants,
The parts of plants, the parts of plants,
Now you know the parts of plants,
That make them grow and grow .
