

St Lucia

Let's take a closer look at the Caribbean.

Can you find St Lucia?

Let's take a closer look at the Caribbean.

Can you find St Lucia?

St Lucia is part of a group of islands called the Windward Isles.

Today we are going to be looking at the human and physical features of St Lucia.

What is the difference between the two?

Human Features

Something that is made by man.

Physical Features

Something that is natural and not man made.

Sort the features into human or physical

Human features. Physical

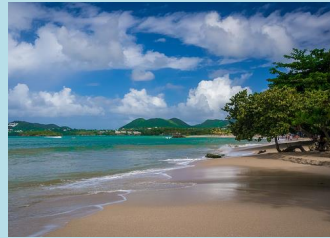

Charles Airport

Castries Market

Rainforest

Choc Beach

Mount Gimie

Castries Port

Human

Charles Airport

Castries Market

Castries Port

Physical

Choc Beach

Rainforest

Mount Gimie

What physical (geographical) features can you spot on the map of St Lucia?

What physical (geographical) features can you spot on the map of St Lucia?

Activity time!

Create matching cards for the human and physical features of St Lucia and play either by yourself or with a family member.

In this side draw a picture of a human feature.	Human feature
--	---------------

Once you have created these pairs of cards, cut them down the middle, turn them over, take it in turns to try and match the picture to either physical or human feature.
