

Maths Focus: All four operations; using the inverse; trial and error; using symbols; order of operations (BIDMAS)

Helpful Hints: For each question, look at the answer first. Estimate what operation you think could have been used and then use your knowledge of inverse operations to solve the unknown symbol.

Level 1	Level 2	Level 3
<p>Ted has solved some calculations but the symbols have gone missing!</p> <p>16 <input type="text"/> 9 = 25</p> <p>11 = 30 <input type="text"/> 19</p> <p>5 <input type="text"/> 3 = 15</p> <p>20 = 2 <input type="text"/> 10</p> <p>1. Solve the unknown operation symbols for each of the number sentences</p>	<p>Ted has solved some calculations but the symbols have gone missing!</p> <p>3 <input type="text"/> 2 <input type="text"/> 5 = 10</p> <p>60 <input type="text"/> 12 = 5</p> <p>30 <input type="text"/> 10 <input type="text"/> 1 = 39</p> <p>75 = 5 <input type="text"/> 15</p> <p>1. Solve the unknown operation symbols for each of the number sentences</p>	<p>Ted has solved some calculations but the symbols have gone missing!</p> <p>149 = 100 <input type="text"/> 1 <input type="text"/> 50</p> <p>8 <input type="text"/> 7 <input type="text"/> 33 = 89</p> <p>800 <input type="text"/> 4 - 75 <input type="text"/> 125</p> <p>140 = 8 <input type="text"/> 12 <input type="text"/> 11</p> <p>1. Solve the unknown operation symbols for each of the number sentences</p>
