## Success in Seven Answers - Monday, Week 3

| Week $3-$ Day 1 |
| :--- |
| $1643 \div 31$ $=$ <br>  $=300 \times 4$ <br>  $=1 / 3 \times 8$ <br>  $=3^{2}+2^{3}$ <br> $15 \div 1000$ $=$ <br> $20 \% \times 3500=$  |

1) $0.8+6.07=6.87$

A good place value one to start with. We know that $6.07+$ something is 6.87 . The place value chart can help. We have 6 units, 0 tenths and 7 hundredths. We can see that the difference between 6.07 and 6.87 is therefore 8 tenths (0.8) and this is what we add to 6.07 to make 6.87.

2) $1643 \div 31=53$

Long method of division needed and your known facts for 31x table. Check your calculating against this one:
3) $300 \times 4=1,200$

Use your known fact of $3 \times 4=12.300$ is one hundred times bigger than 3 , so we must remember our answer

|  |  | 0 | 0 | 5 | 3 |  |  |  |  |  |  |
| ---: | ---: | ---: | ---: | ---: | ---: | :--- | :--- | :--- | :--- | :--- | :--- |
| 3 | 1 | 1 | 5 | 6 | 14 | 3 |  | 1 | 3 | 1 |  |
|  | - | 1 | 5 | 5 | 1 |  |  | 2 | 6 | 2 |  |
|  |  | 0 | 0 | 9 | 3 |  |  | 3 | 9 | 3 |  |
|  | - |  |  | 9 | 3 |  | 4 | 1 | 2 | 4 |  |
|  |  |  |  |  | 0 |  | 5 | 1 | 5 | 5 |  | is one hundred times bigger too. $12 \times 100=1,200$

4) $1 / 3 \times 8=2 \quad 2 / 3$

Here you are being asked for 8 bits of a third.
Did you remember the procedure?
Remember - it's okay to use visuals if you need them $\odot$.
5) $3^{2}+2^{3}=17$
$3^{2}=3 \times 3$ and $2^{3}=2 \times 2 \times 2$. We have to solve each part separately and then add the answers together. $3 \times 3=9$ and $2 \times 2 \times 2=8$. Cubing a number can be difficult - be careful, we have to do $2 \times$ $2=4$ and then $4 \times 2=8$ not. Then we must add the answers together $=9+8=17$.
6) $15 \div 1000=0.015$

15 is becoming a thousand times smaller. The digits will move three places to the right.
This should have been answered using mental methods only.

|  |  | $\stackrel{\text { ¢, }}{\text { ¢ }}$ | $\frac{2}{5}$ |  | $\begin{aligned} & \stackrel{n}{F} \\ & \stackrel{y}{\omega} \\ & \hline \end{aligned}$ |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | 1 | 5 | . |  |  |  |  |  |
|  |  |  | $\bigcirc$ | . | 0 | 1 | 5 |  |  |
|  |  |  |  | . |  |  |  |  |  |

7) $20 \% \times 3500=700$

Find $10 \%$ first by doing $3500 \div 10=350$ and then double the answer to get $20 \%$ :
$350 \times 2=700$
