

Through **Maths**, we will explore numbers up to 50 and how they are similar or different to each other. We will learn about the place value of the numbers and what the digits mean. We will continue to develop our knowledge and understanding of addition and subtraction within 20 through problem solving and using resources to help us solve calculations. We will learn to count in 2s, 5s and 10s forwards and backwards and develop our knowledge of capacity and weight.

Through our **History**, we will be learning about how and why transport has changed over time. We will learn about the company 'Thornycroft' and how they have links to Basingstoke.

In **Design Technology**, the children will explore moving pictures. They will learn how to make pivots, hinges and slides using paper and mechanisms in order for them to design and make their own moving picture inspired by Mrs Armitage.

Our project, 'On the Move', will explore the big question, 'How has transport changed?'

Useful vocabulary for this project...

Transport, vehicle, car, lorry, train, boat, aeroplane, bike, bicycle, hot air balloon, metal, plastic, travel, mechanism, pivot, slide, hinge, Thornycroft, old, new, change.

During our **PSHE and Heart Smart learning** this term, we will explore the idea of 'Don't hold onto what's wrong! We will continue to think about how to stay safe through our **Natterhub** discussions in class.

In **English** this term, we will be looking at the story, 'The Naughty Bus' to help us write a recount of our trip to Milestones. We will also be writing about all the things we might see on a train ride. We will be working on using full stops and capital letters in a sentence and making sure we use finger spaces between words. We will also start to use 'and' in a sentence to join two ideas.

Reading will happen every day through 1:1 reading and phonics. Please continue to read frequently with your child at home and practise any keywords sent home as it really does help them.

In our **RE** learning this term, we will be thinking about the concept of 'Sadness to Happiness' and considering why Christians think the Easter story is a happy story. We will be thinking about why both the sad and happy parts of the Easter story are important to Christians and how this helps them with their faith.

During our **PE** this term, the children will be indoors and outdoors developing their balance and coordination when using different balls and learning a variety of games.
