

In **Art**, the children will be exploring the use of clay as a medium. They will learn how to make different textures with it and manipulate it into different shapes. The children will use their skills learnt to create their own polar animal inspired clay tile.

During our **PE** this term, the children will continue to develop their teamwork skills through learning about sending and receiving ball games. Please ensure your child is wearing their correct PE kit to school on...

**1C – Thursday**  
**1P/1J - Friday**

Our **Geography** this term will be learning about the Polar regions and how they are similar or different to where we live. We will be exploring what it would be like to live in the Poles and then thinking about the different animals we might see there.

During our **Heart Smart** this term, we will be looking at 'Don't forget to let love in'. We will be thinking about how to treat each other with kindness and how each of us is unique and special.

In **Science** we will be learning about animals and compare them by thinking about what makes them similar or different. We will be exploring where they live and how this affects the food they eat.

**Our project,**  
**'Polar Explorers', will**  
**explore the big**  
**question,**  
**'Is our World the same**  
**for everyone?'**

We will still be using google classroom.

- For weekly spellings
- For isolating lessons
- For messages on the stream

In our **RE** learning this term, we will be looking at incarnation and considering why Christmas matters to Christians. We will be thinking about the importance of the birth of Jesus to Christians and learning what happens in the nativity story that tells Christians that Jesus is God on Earth.

Through **Maths**, we will continue to practise our counting within 20, especially backwards from different starting points. We will develop our understanding of addition and subtraction and use this to help us solve problems. We will continue to use lots of pictures and resources to help us with our maths learning.

In **English** this term, we will learn to write information texts about the Polar Lands and animals. We will also learn about writing letters using the texts, 'The Great Explorer' and 'Herman's Letters' to help inspire us. In our writing we will focus on writing full sentences with a full stop and continue to develop our handwriting.

**Reading** and phonics will happen every day. Please continue to read frequently with your child at home and practise any keywords sent home as it really does help them.
