

In **Maths**, this half term, we will learn about fractions and finding halves and quarters of shapes and numbers. We will use of knowledge of multiplication and division to help us when solving problems about fractions. Later in the term, we will be learning about time and reading time to the hour, half past, quarter past and quarter to the hour. We will continue to recall and use of 2x, 5x and 10x tables. Please encourage your child to try TTRS at home to help embed their learning of times-tables

In **Science**, children will explore how plants grow and what they need to survive. We will complete our own investigations and will observe plants as they grow. We will also take the opportunity to use our learning to grow plants to improve the area outside Year 2.

Our **PE** will take place on a Tuesday (outdoors) and Wednesday (indoors).

We will be learning about sending and receiving and reaction and response.

During our **Heart Smart and PSHE** learning this term, we will be looking at 'Fake is a mistake!' and will continue to think about how we can be Agents of Change.

In our **Computing**, this term, we will be learning about what stop motion animation is and will be working to create our own stop motion animation.

Year 2 - Summer 1

Terrific Tanzania

This half term we will be exploring the big question 'Is our world the same for

In **Geography**, we will be thinking about Tanzania in Africa and learning about aspects of the landscape, climate, environment, culture and lifestyle. We will then compare this to what we have learnt about our local area of Hatch Warren and Beggarwood earlier in the year. We will think about some of the issues locally and in Tanzania and will consider our global responsibilities. We will consider ways that we can take action and make a difference to our world.

Our **RE** will look at Gospel in terms of good and bad news. We will consider what Christians believe to be good news and how this impacts on their actions and how they live their lives.

In **Art**, we will improve our painting skills through work linked to our geography project. We will develop our use of colour and the range of brushstrokes we use while creating artwork depicting the Tanzanian landscape.

In **Music**, we will be creating music inspired by African songs and animals.

Through **English**, we will further develop our writing skills and enrich our use of vocabulary. We will start the term by completing a recount based on the Anthony Browne book Voices in the Park. Across the half term, we will also write stories in response to different starting points.

When writing, we will work hard to extend the range of vocabulary we use and strengthen our use of correct punctuation and grammar in our sentences.

Reading is still very important and your child will be reading daily during our phonics sessions. Please continue to read with your child at home to develop their fluency and comprehension.
